## SUMMARY

Skilled and motivated front-end developer with over 5.5 years of experience specializing in creating dynamic and responsive user interfaces. Proficient in HTML, CSS, JavaScript, ReactJS, Redux, and React Query, with a proven ability to deliver high-quality code and user-centred design solutions. Known for consistently delivering maintainable, high-performance code and receiving 95% positive feedback from management for punctuality, professionalism, and adaptability. Seeking a challenging senior front-end developer position where I can leverage my expertise to contribute to the success of the company.

## PROFESSIONAL EXPERIENCE

### Dassault Systemes

R&D Engineer Specialist

Pune, Maharashtra

December 2021–Present

- Developed and maintained a cloud-based application on the 3DS platform to manage real-world locations by creating their virtual counterparts.
- Implemented dynamic front-end interfaces using **ReactJS** and integrated **RESTful APIs** for efficient backend communication.
- Designed and optimized features to merge multiple locations and display timelines showcasing their visual states on specific dates.
- Enabled virtual twin creation for physical locations, supporting advanced 3D functionalities such as area measurement, object placement simulations, and operational modelling in **3D** tools.
- Enhanced user experience by implementing intuitive navigation, **responsive design**, and user-friendly workflows.

### Tata Consultancy Services

System Engineer

Pune, Maharashtra

June 2019–November 2021

- Led the transformation of the admin website post-merger of BB&T and SunTrust, using **React** to modernize and enhance functionality for Truist, a leading financial institution in the **banking sector**.
- Collaborated with cross-functional teams to design, develop, and deploy new features that enhanced user experience and improved operational efficiency.
- Implemented **responsive design** principles, ensuring compatibility across multiple devices and browsers for a consistent user experience.
- Integrated backend services and APIs, enabling seamless data flow and improving overall functionality.
- Delivered projects on time and within scope, successfully meeting company objectives during the transition period.

## EDUCATION

### Rajiv Gandhi Proudyogiki Vishwavidyalaya

Bachelor of Technology in Computer Science and Engineering  
CGPA (7.36)

Bhopal, Madhya Pradesh

May 2019

## SKILLS

- Languages: JavaScript
- Frontend Frameworks/Libraries: React, Redux, Hooks, React-Query, React-Router

- Version control: Git, GitHub
- Testing Tools: Jasmine, Jest, CAFET (similar to Selenium)

## PERSONAL PROJECTS

---

### VShop - Shopping Website

- Developed a fully functional e-commerce website, implementing features like product listing, shopping cart, payment processing, and user authentication.
- Utilized **HTML, CSS, JavaScript, React, Redux, Node.js, MongoDB, and PayPal API** to create an interactive and seamless online shopping experience.
